# Leave a Mark with Beauty That Endures

Jindal NEUCOLOR+ is a high-performance colour coated steel sheet from Jindal India Limited, a member of the esteemed B.C. Jindal Group with seven decades of industry expertise. Combining strength of steel with superior aesthetics, NEUCOLOR+ is designed for applications that demand exceptional durability and visual appeal.

The sheets feature advanced paint technologies such as SMP, SDP, PVDF, and RMP, alongside a superior aluminium-zinc coating. This specialised coating provides enhanced corrosion resistance, ensuring that NEUCOLOR+ performs reliably even in challenging environments. NEUCOLOR+ offers long-lasting durability and peace of mind, making it a top-tier choice for structures requiring both strength and style.
